**TREAT CATARRH BY NATURE'S METHOD**

Every Breath of Hyomel Carries Healing Medicated Air to the Infected Membrane.

Nearly every one who has catarrh knows how foolish it is to try to cure it with sprays, ointments and the like. Temporary relief may be given, but a cure seldom comes. The only way to cure catarrh is to have a change of climate, but Hyomel you can carry a health-giving climate in your vest pocket, and by breathing it a few minutes four times a day, successfully treat yourself.

The complete Hyomel outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomel. The inhaler lasts a lifetime, and if one bottle does not give permanent relief, an extra bottle of Hyomel can be obtained at any time for a trifling sum. It is more economical than all remedies advertised for the cure of catarrh, and the only treatment known to us that follows nature in her method of treating diseases of the respiratory organs.

Tracie Drug Co. have sold a great many Hyomel outfits, and the more they sell the more convinced they are that they are perfectly safe in guaranteeing to refund the money if Hyomel does not relieve.

# NORTHERN SUBURBS WANT MORE POLICEMEN

Conference Is Held in Office of Mayor Ainslie as to Situation.

## ELEVEN MEN ARE NOW ON DUTY

This Is Several Times More Than Township Provided Before Annexation—Ainslie Discusses Sending Men to Hopewell.

Following a conference yesterday between the Mayor and a delegation from the North Richmond Citizens' Association on the question of better policing for the northern territory recently annexed to the city, it was decided to hold another conference at 1:30 o'clock today with Chief of Police Werner and Captain Epps and Sowell, of the First and Second District, respectively.

At to-day's meeting the citizen delegation and the Mayor will go over the situation with the police authorities to see if means cannot be found to meet the views of the petitioners. The Police Department asked the budget-makers to provide thirty men for the annexed territory, but provision was made for only fifteen. Of this number, eleven have been assigned to duty in the annexed territory north of the river and four in the new area on the Southside.

## MORE NOW THAN BEFORE ANNEXATION

Members of the Finance Committee recalled yesterday that when that body last year was considering the police needs of the annexed territory, representative citizens from the suburban towns north of the river made a special point of the fact that in the case of Ginter Park, Highland Park and North Richmond, a single police officer and an assistant were sufficient before annexation to handle the needed protection. In one or two cases even, officers in these towns performed other public services, as superintendents of streets and other utilities.

With annexation the towns lost their identity as separate communities, and the Police Department dealt with them as part of the enlarged city, placing them in the First or Second Police District, in accordance with the dividing the territory previously in force. In assigning eleven of the fifteen men available for the new territory to the northern suburbs, the Police Department is stated, dealt as liberally with this territory as was possible under the circumstances, incidentally also, giving this area more policemen than it ever had before.

Mayor Ainslie and Chief Werner received communications yesterday protesting against the sending of policemen to Hopewell when the force was not large enough to meet local needs. Only four officers were placed on the Hopewell assignment.

"I wish people would understand that the sending of these four men in no way affects the service in the city," said Mayor Ainslie yesterday. "They are at once replaced by men on our approved list, who serve in their stead. The officers assigned to duty outside the city are cared for by the authorities there, and the Police Department incurs no extra expense."

It is stated that no protest against this practice of lending policemen to other cities has been heard until now. For years the city has been assigning from twenty to twenty-five men to duty at the Fair Grounds, then in Henric County. They remained there a whole week, and nobody said a word about depleting the city force. As in the present case, their places were taken by deputies from the approved list. I cannot understand the inconsistency in the protest against lending four policemen officers to help a neighboring town take care of a difficult situation."

The delegation that conferred with the Mayor yesterday included O. A. Hawkins, W. G. Quarles, Thomas Whitsett, A. F. Ryland, Rev. G. W. Kemper, Julian C. Anderson and Percy Smith.

**Reception to Minister.**

Rev. and Mrs. William Thomas Hall, who will leave in a few days for Louisville, Ky., held a reception last night at the home of Mrs. J. L. Lindsey, 622 North Seventh Street, where their friends in this city came to take leave of them. Mr. Hall will enter the theological seminary in Louisville, and Mrs. Hall will take up work in the woman's department of the institution.

**Will Speak at County Fairs.**

Governor Stuart yesterday accepted two more invitations to deliver addresses at county fairs next month. The invitation to the fair of the Fluvanna County Fair was accepted. The Governor will speak in Fluvanna October 21. He will speak at the Isle of Wight County Fair, in Smithfield, October 26.

# Velvet and Fur to Be Much Worn This Fall

One phase of the craze for fur trimming is seen on a costume of taupe velvet.

Cliffon velvet is scheduled for smart patronage in suits, dresses and coats. For daytime wear the dark colors are preferred, but in the evening garments the full tones and the half-tones are sanctioned, usually treated in some decorative way with fur.

The sketch illustrates a new model of taupe velvet. A closely plaited panel of the material is introduced on the skirt front, while the sides, just above the hem, are bordered with a band of skunk.

The fetching jacket exploits a very full pelum, topped by a self-belt with gold thread ornaments. Softening the top of the fur band collar is a ruffle of taupe satin. Fur finishes the edge of the bell-flared sleeves.

# RAILWAY MEN ATTEND HUNTINGTON FESTIVAL

Stevens, Potts and Hotchkiss to Represent Chesapeake and Ohio System.

## N. & W. SUBMITS REPORT

Sharp Cut in Operating Expenses Enables Road to Show Surplus, Notwithstanding Decrease in Gross Revenue.

President Stevens, of the Chesapeake and Ohio, accompanied by John D. Potts, general passenger agent, and J. D. Hotchkiss, general freight agent, left yesterday for Huntington, W. Va., to be present at the railroad day celebration in connection with the Fall Festival in that city. Prominent officials of the Norfolk and Western and Baltimore and Ohio will also be present.

The annual report of the Norfolk and Western for the year ending June 30 shows a grip on its operating expenses, which enabled it to close its accounts on June 30 with a surplus for the common stock within \$2,000 of the amount for the previous year. This was accomplished notwithstanding the gross revenues decreased \$1,643,266, "other income" decrease, \$234,181, and charges increased \$199,256.

Total freight tonnage of the year decreased 1,232,571 tons, the loss consisting principally of a decline in shipments of coke, lumber and pig iron. Operating revenues were decreased 7.5 per cent and transportation expenses cut down 11 per cent.

Double-track work on the Norfolk and Western, involving an expenditure of \$285,000, has been begun between Rippledale and Walton, a distance of eight miles, along New River.
